

## 1. Identification

|  |   |                 |
|--|---|-----------------|
| Product identifier                                     | Hydrochlorothiazide   |                 |
| Other means of identification                          |   |                 |
| Catalog number   | 1314009   |                 |
| CAS number   | 58-93-5   |                 |
| Chemical name  | 2H-1,2,4-Benzothiadiazine-7-sulfonamide, 6-chloro-3,4-dihydro-, 1,1-dioxide |                 |
| Recommended use  | Specified quality tests and assay use only.                                 |                 |
| Recommended restrictions                               | Not for use as a drug. Not for administration to humans or animals.         |                 |
| Manufacturer/Importer/Supplier/Distributor information |   |                 |
| Manufacturer   |   |                 |
| Company name   | U. S. Pharmacopeia  |                 |
| Address  | 12601 Twinbrook Parkway<br>Rockville<br>MD<br>20852-1790<br>United States   |                 |
| Telephone  | RS Technical Services   | 301-816-8129    |
| Website  | www.usp.org   |                 |
| E-mail   | RSTECH@usp.org  |                 |
| Emergency phone number                                 | CHEMTREC within US & Canada   | 1-800-424-9300  |
|  | CHEMTREC outside US & Canada  | +1 703-527-3887 |

## 2. Hazard(s) identification

|                              |                 |            |
|------------------------------|-----------------|------------|
| <b>Physical hazards</b>      | Not classified. |            |
| <b>Health hazards</b>        | Carcinogenicity | Category 2 |
| <b>Environmental hazards</b> | Not classified. |            |
| <b>OSHA defined hazards</b>  | Not classified. |            |

### Label elements

|  |  |
|--|--|
| <b>Signal word</b>                               | Warning  |
| <b>Hazard statement</b>                          | Suspected of causing cancer.   |
| <b>Precautionary statement</b>                   |  |
| <b>Prevention</b>                                | Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection. |
| <b>Response</b>                                  | If exposed or concerned: Get medical advice/attention.   |
| <b>Storage</b>                                   | Store locked up.   |
| <b>Disposal</b>                                  | Dispose of contents/container in accordance with local/regional/national/international regulations.  |
| <b>Hazard(s) not otherwise classified (HNOC)</b> | None known.  |
| <b>Supplemental information</b>                  | Pharmacologically active material.   |

## 3. Composition/information on ingredients

### Substance

| Chemical name       | Common name and synonyms | CAS number | %   |
|---------------------|--------------------------|------------|-----|
| Hydrochlorothiazide |                          | 58-93-5    | 100 |

## 4. First-aid measures

|   |  |
|---|--|
| <b>Inhalation</b>   | Move to fresh air. Call a physician if symptoms develop or persist.  |
| <b>Skin contact</b>   | Rinse skin with water/shower. Get medical attention if irritation develops and persists.   |
| <b>Eye contact</b>  | Rinse with water. Get medical attention if irritation develops and persists.   |
| <b>Ingestion</b>  | Rinse mouth. If ingestion of a large amount does occur, call a poison control center immediately.  |
| <b>Most important symptoms/effects, acute and delayed</b>                     | Pharmacologically active material. Occupational exposure may cause physiological effects.  |
| <b>Indication of immediate medical attention and special treatment needed</b> | Treat symptomatically. Treatment of thiazide diuretic overdose may include the following: Administer activated charcoal as a slurry. Cathartics may potentiate fluid and electrolyte disturbances and should be AVOIDED. For dysrhythmias, first correct electrolyte imbalance. If dysrhythmias persist despite correction, treat with standard advanced cardiac life support protocols. Monitor fluid and electrolyte balance carefully.  |
| <b>General information</b>  | Remove from exposure. Remove contaminated clothing. For treatment advice, seek guidance from an occupational health physician or other licensed health-care provider familiar with workplace chemical exposures. In the United States, the national poison control center phone number is 1-800-222-1222. If person is not breathing, give artificial respiration. If breathing is difficult, give oxygen if available. Persons developing serious hypersensitivity (anaphylactic) reactions must receive immediate medical attention. |

## 5. Fire-fighting measures

|  |  |
|--|--|
| <b>Suitable extinguishing media</b>                                  | Water. Foam. Dry chemical or CO2. Use fire-extinguishing media appropriate for surrounding materials.  |
| <b>Unsuitable extinguishing media</b>                                | None known.  |
| <b>Specific hazards arising from the chemical</b>                    | No unusual fire or explosion hazards noted.  |
| <b>Special protective equipment and precautions for firefighters</b> | Wear suitable protective equipment.  |
| <b>Fire fighting equipment/instructions</b>                          | Use water spray to cool unopened containers. As with all fires, evacuate personnel to a safe area. Firefighters should use self-contained breathing equipment and protective clothing. |
| <b>Specific methods</b>  | Use standard firefighting procedures and consider the hazards of other involved materials.   |
| <b>General fire hazards</b>  | No unusual fire or explosion hazards noted.  |

## 6. Accidental release measures

|  |  |
|--|--|
| <b>Personal precautions, protective equipment and emergency procedures</b> | Keep unnecessary personnel away. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Avoid inhalation of dust from the spilled material. Ensure adequate ventilation. Wear appropriate protective equipment and clothing during clean-up. For personal protection, see section 8 of the SDS. |
| <b>Methods and materials for containment and cleaning up</b>               | For waste disposal, see section 13 of the SDS. Avoid the generation of dusts during clean-up. Sweep up or vacuum up spillage and collect in suitable container for disposal. Clean surface thoroughly to remove residual contamination.  |
| <b>Environmental precautions</b>   | Avoid discharge into drains, water courses or onto the ground.   |

## 7. Handling and storage

|   |   |
|---|---|
| <b>Precautions for safe handling</b>                                | As a general rule, when handling USP Reference Standards, avoid all contact and inhalation of dust, mists, and/or vapors associated with the material. Clean equipment and work surfaces with suitable detergent or solvent after use. After removing gloves, wash hands and other exposed skin thoroughly. Select and use containment devices and personal protective equipment based on a risk assessment of material potency and exposure potential. |
| <b>Conditions for safe storage, including any incompatibilities</b> | Store in tight container as defined in the USP-NF. This material should be handled and stored per label instructions to ensure product integrity.   |

## 8. Exposure controls/personal protection

### Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

**Exposure limit values****Industrial Use  
Material****Type****Value**Hydrochlorothiazide (CAS  
58-93-5)

TWA

500 micrograms/m3

**Biological limit values**

No biological exposure limits noted for the ingredient(s).

**Appropriate engineering  
controls**

For laboratory operations, use local exhaust ventilation or a ventilated enclosure for high energy operations such as particle sizing. Control exposures to below the occupational exposure level (if available). Select and use containment devices and personal protective equipment based on a risk assessment of exposure potential. Cover all containers for solutions and slurries while being transferred.

**Individual protection measures, such as personal protective equipment****Eye/face protection**

Wear safety glasses with side shields, chemical splash goggles, or full face shield, if necessary. Base the choice of protection on the job activity and potential for contact with eyes or face. An emergency eye wash station should be available.

**Skin protection****Hand protection**

Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved or suspended in an organic solvent, wear gloves that provide protection against the solvent.

**Other**

Train employees in proper gowning and degowning practices. Wear lab coat. Base the choice of skin protection on the job activity, potential for skin contact and solvents and reagents in use. Do not wear protective garments in common areas (e.g., cafeterias) or out-of-doors.

**Respiratory protection**

Respirators are generally not required for laboratory operations. Use a tight-fitting full-face respirator with HEPA filters for spill cleanup. Choose respiratory protection appropriate to the task and the level of existing engineering controls.

**Thermal hazards**

Wear appropriate thermal protective clothing, when necessary.

**General hygiene  
considerations**

Handling practices in this SDS are recommendations for laboratory use of reference standards. Procedures for any other uses or quantities should be determined after an appropriate assessment.

**9. Physical and chemical properties****Appearance**

Appearance descriptions are general information and not specific to any USP lot.

**Physical state**

Solid.

**Form**

Powder.

**Color**

White.

**Odor**

Odorless.

**Odor threshold**

Not available.

**pH**

Not available.

**Melting point/freezing point**

523.4 - 527 °F (273 - 275 °C)

**Initial boiling point and boiling  
range**

Not available.

**Flash point**

Not available.

**Evaporation rate**

Not available.

**Flammability (solid, gas)**

Not available.

**Upper/lower flammability or explosive limits****Flammability limit - lower  
(%)**

Not available.

**Flammability limit - upper  
(%)**

Not available.

**Explosive limit - lower (%)**

Not available.

**Explosive limit - upper (%)**

Not available.

**Vapor pressure**

&lt; 0.0000001 kPa at 25 °C

**Vapor density**

Not available.

**Relative density**

Not available.

**Solubility(ies)****Solubility (water)**

Slightly soluble.

**Solubility (other)**

Chloroform: Insoluble.

|  |   |
|--|---|
|  | Dimethylformamide: Freely soluble.<br>Ether: Insoluble.<br>Methanol: Sparingly soluble.<br>Sodium hydroxide solution: Freely soluble. |
| <b>Partition coefficient<br/>(n-octanol/water)</b> | -0.07   |
| <b>Auto-ignition temperature</b>                   | > 932 °F (> 500 °C)   |
| <b>Decomposition temperature</b>                   | Not available.  |
| <b>Viscosity</b>                                   | Not available.  |
| <b>Other information</b>                           |   |
| <b>Chemical family</b>                             | Benzothiadiazine.   |
| <b>Molecular formula</b>                           | C7H8ClN3O4S2  |
| <b>Molecular weight</b>                            | 297.74  |

## 10. Stability and reactivity

|   |   |
|---|---|
| <b>Reactivity</b>                         | The product is stable and non-reactive under normal conditions of use, storage and transport.   |
| <b>Chemical stability</b>                 | Material is stable under normal conditions.   |
| <b>Possibility of hazardous reactions</b> | No dangerous reaction known under conditions of normal use.                                     |
| <b>Conditions to avoid</b>                | Contact with incompatible materials.  |
| <b>Incompatible materials</b>             | None known.   |
| <b>Hazardous decomposition products</b>   | NOx. SOx. Cl-. Irritating and/or toxic fumes or gases. Emits toxic fumes under fire conditions. |

## 11. Toxicological information

### Information on likely routes of exposure

|  |  |
|--|--|
| <b>Inhalation</b>  | Knowledge about health hazard is incomplete.   |
| <b>Skin contact</b>  | Knowledge about health hazard is incomplete.   |
| <b>Eye contact</b>   | Knowledge about health hazard is incomplete.   |
| <b>Ingestion</b>   | Knowledge about health hazard is incomplete.   |
| <b>Symptoms related to the physical, chemical, and toxicological characteristics</b> | Thiazide diuretics: Central nervous system depression. Gastrointestinal disturbances. Dehydration. Increased urination. Fever. Headache. Sensitivity of skin to sunlight. Skin rash. Muscle cramps or pain. Mood or mental changes. Convulsions. Decreased sexual ability. |

### Information on toxicological effects

#### Acute toxicity

| Product   | Species                                      | Test Results |
|---|--|--------------|
| Hydrochlorothiazide (CAS 58-93-5)                                 |  |              |
| <u>Acute</u>  |  |              |
| Oral  |  |              |
| LD50  | Mouse  | 1175 mg/kg   |
|   | Rat  | 2750 mg/kg   |
| Skin corrosion/irritation   | Knowledge about health hazard is incomplete. |              |
| Serious eye damage/eye irritation                                 | Knowledge about health hazard is incomplete. |              |
| Respiratory or skin sensitization                                 |  |              |
| Respiratory sensitization   | Knowledge about health hazard is incomplete. |              |
| Skin sensitization  | Knowledge about health hazard is incomplete. |              |
| Germ cell mutagenicity  | Knowledge about mutagenicity is incomplete.  |              |
| Mutagenicity  |  |              |
| Mouse lymphoma assay  |  |              |
| Result: Positive.   |  |              |
| Mutagenicity, Chromosome aberration test in Chinese hamster cells |  |              |
| Result: Negative.   |  |              |

**Mutagenicity**

Mutagenicity, Mitotic recombination and nondisjunction tests in *Aspergillus*  
Result: Positive.  
Mutagenicity, Sex-linked lethal mutations in *Drosophila*  
Result: Negative.  
Mutagenicity, Sister chromatid exchange in Chinese hamster cells  
Result: Positive.

**Carcinogenicity**

Suspected of causing cancer.

2000 ppm Carcinogenicity  
Result: No evidence of carcinogenicity.  
Species: Rat  
5000 ppm Carcinogenicity  
Result: Increased incidence of hepatocellular neoplasms in males. No evidence of carcinogenicity in females.  
Species: Mouse

**IARC Monographs. Overall Evaluation of Carcinogenicity**

Hydrochlorothiazide (CAS 58-93-5) 2B Possibly carcinogenic to humans.

**OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)**

Not regulated.

**US. National Toxicology Program (NTP) Report on Carcinogens**

Not listed.

**Reproductive toxicity**

Knowledge about health hazard is incomplete. Thiazide diuretics decrease plasma volume but have not shown negative effects on fetal growth. Thiazide diuretics cross the placenta and distribute into breast milk. Suppression of lactation has been reported with large doses in therapeutic use.

**Reproductivity**

1000 mg/kg Reproductivity  
Result: No evidence of birth defects.  
Species: Rat  
250 mg/kg Reproductivity  
Result: No embryo or fetotoxicity.  
Species: Rat  
3000 mg/kg Reproductivity  
Result: No evidence of birth defects.  
Species: Mouse

**Specific target organ toxicity - single exposure**

Knowledge about health hazard is incomplete.

**Specific target organ toxicity - repeated exposure**

Knowledge about health hazard is incomplete.

**Aspiration hazard**

Based on available data, the classification criteria are not met.

**Further information**

Pharmacologically active material. Occupational exposure may cause physiological effects.

**12. Ecological information****Ecotoxicity**

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

**Persistence and degradability**

No data is available on the degradability of this product.

**Bioaccumulative potential****Octanol/water partition coefficient log K<sub>ow</sub>**

-0.07

**Mobility in soil**

No data available.

**Other adverse effects**

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

**13. Disposal considerations****Disposal instructions**

Dispose in accordance with all applicable regulations. Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.

**Local disposal regulations**

Dispose in accordance with all applicable regulations.

|  |  |
|--|--|
| <b>Hazardous waste code</b>                  | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| <b>Waste from residues / unused products</b> | Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).  |
| <b>Contaminated packaging</b>                | Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. |

## 14. Transport information

### DOT

Not regulated as dangerous goods.

### IATA

Not regulated as dangerous goods.

**Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code** Not applicable.

**General information** It is the shipper's responsibility to determine the correct transport classification at the time of shipment.

## 15. Regulatory information

**US federal regulations** This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

### CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

### SARA 304 Emergency release notification

Not regulated.

### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

### Superfund Amendments and Reauthorization Act of 1986 (SARA)

**Hazard categories** Immediate Hazard - No  
Delayed Hazard - Yes  
Fire Hazard - No  
Pressure Hazard - No  
Reactivity Hazard - No

### SARA 302 Extremely hazardous substance

Not listed.

**SARA 311/312 Hazardous chemical** Yes

**SARA 313 (TRI reporting)**  
Not regulated.

### Other federal regulations

#### Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

#### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

**Safe Drinking Water Act (SDWA)** Not regulated.

**US state regulations** California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

### International Inventories

| Country(s) or region | Inventory name   | On inventory (yes/no)* |
|----------------------|--|------------------------|
| Australia            | Australian Inventory of Chemical Substances (AICS)         | Yes                    |
| Canada               | Domestic Substances List (DSL)                             | Yes                    |
| Canada               | Non-Domestic Substances List (NDSL)                        | No                     |
| China                | Inventory of Existing Chemical Substances in China (IECSC) | No                     |

| Country(s) or region        | Inventory name   | On inventory (yes/no)* |
|-----------------------------|--|------------------------|
| Europe                      | European Inventory of Existing Commercial Chemical Substances (EINECS) | Yes                    |
| Europe                      | European List of Notified Chemical Substances (ELINCS)                 | No                     |
| Japan                       | Inventory of Existing and New Chemical Substances (ENCS)               | Yes                    |
| Korea                       | Existing Chemicals List (ECL)  | No                     |
| New Zealand                 | New Zealand Inventory  | Yes                    |
| Philippines                 | Philippine Inventory of Chemicals and Chemical Substances (PICCS)      | Yes                    |
| United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory                          | Yes                    |

\*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)

A "No" indicates that one or more components of the product are not listed or exempt from listing on the inventory administered by the governing country(s).
